United Arab Emirates (UAE), Abu Dhabi

Education

American University of Sharjah

Sharjah, United Arab Emirates

Bachelor of Science in Computer Science

May 2027

Relevant Coursework: DSA, Design & Analysis of Algorithms, Database Systems, Web Apps, AI, Statistics in Data Science, ML, Computer Networks, Computer Systems.

Experience

ADNOC Offshore

Abu Dhabi, United Arab Emirates

Internship

June 2026 – August 2026

- Built an Employee Performance Tracker on Microsoft Power Platform (Power Apps, Dataverse, Power BI) with role-based views, task management, and real-time analytics dashboards

Leadership & Involvement

Student Leadership Program (SLP)

Sharjah, United Arab Emirates

Team Leader

August 2024 – May 2026

- Mentored around 20+ first-year students each year through online sessions, pre-orientation support, answered questions, and provided campus tours.
- Hosted the NSO Peer Leading dinner for new students, coordinating activities and ensuring a welcoming environment for all attendees.

AI Club

Sharjah, United Arab Emirates

Activities Coordinator (Past) & Executive Assistant (Present)

August 2024 – Present

- Represented the club at the university fair and supported student engagement initiatives, and organized tech-related events, trivia games, and workshops.

Algorithm Club

Sharjah, United Arab Emirates

Activities Coordinator

August 2025 – May 2026

- Assisted in planning and running club events and workshops.

SPE MENA PetroBowl Regional Championship

Abu Dhabi, United Arab Emirates

ScoreKeeper

August 2026

- Recorded and verified team scores during a regional technical quiz competition, ensuring accuracy and fairness across all matches.

Projects

Rideshare Data Analysis and Predictive Modelling (R)

- Analyzed 637K+ Uber & Lyft records; built regression, logistic, and Naive Bayes models for pricing and cab classification.

Full-Stack Web Application – “Choose Your Outfit” (Java, HTML, CSS, JavaScript, SQL)

- Developed a multi-page web app with Java, SQL, HTML, CSS, and JavaScript; implemented CRUD functionality using the DAO pattern.

Tour Booking Management System with JDBC GUI (Java, Oracle SQL)

- Designed a relational database and built a Java GUI using JDBC for full data management.

Bank Marketing Data Analysis

- Trained and compared Decision Tree, Naïve Bayes, and Logistic Regression models with PCA and ROC/AUC evaluation to predict customer bank subscription.

Skills

Languages: Arabic, English

Technical Skills: Microsoft Office & Google Workspace, C++, Python, HTML, CSS, SQL, JavaScript, Java.

Activities & Interests

Activities: AI Club, Algorithm Club, Peer Leaders Program, AUS Engineering Shadow Program.

Interests: Data science & analysis, Cyber-Security, AI, ML, and Game Development.
